

who had a strong sense of duty toward his country from a very young age. COL Alva Bryan Lasswell, known as "Red" to friends, was a World War II war hero whose service has gone unrecognized for most of his life. I believe it is finally time to honor Colonel Lasswell for the brave servicemember that he was.

When he was only 13 years old, Colonel Lasswell tried to join the Marine Corps. Due to age requirements, the future hero would have to wait until his 21st birthday to enlist. Throughout his distinguished military career, Colonel Lasswell was awarded the rank of 2nd lieutenant and served in Navy intelligence.

During World War II, he was stationed at Pearl Harbor and was selected as one of 10 officers to take part in the elite intelligence gathering unit. In May 1942, Colonel Lasswell intercepted an unusual message that he reported to Navy headquarters. The message was a Japanese Operational Order authorizing the Battle of Midway. As a result of Lasswell's heroic service, the Navy was able to prepare for the attack, and the Battle of Midway would go on to become the first major victory for the Navy in World War II.

This was not the end of his service however. Colonel Lasswell later translated a message which led to the shooting down of a plane carrying Japanese Admiral Isoroku Yamamoto in 1943, and in 1944 he recovered intelligence which involved a plot to assassinate GEN Douglas MacArthur. In addition, Lasswell's intelligence helped the U.S. Navy Antisubmarine Group sink at least five submarines in 1944. Lasswell completed his military career in 1956, serving as Chief of Staff for the Marine Recruit Depot.

Despite his tremendous service to his country, Colonel Lasswell never received distinction or recognition for his intelligence recovery efforts during World War II. At this time, I would like to pay him the tribute he has deserved for so long.●
